DISABILITY DISCRIMINATION POLICY

- An associate, in relation to a person: includes:
 - a) a spouse of the person
 - b) another person who is living with the person on a genuine domestic basis
 - c) a relative of the person
 - d) a carer of the person
 - e) another person who is in a business, sporting or recreational relationship with the person.
- Direct disability discrimination: a person (the discriminator) discriminates against another person (the aggrieved person) on the ground of a disability of the aggrieved person if, because of the disability, the discriminator treats, or proposes to treat, the aggrieved person less favourably than the discriminator would treat a person without the disability in circumstances that are not materially different.

A person (the discriminator) also discriminates against another person (the aggrieved person) on the ground of a disability of the aggrieved person if:

- a) the discriminator does not make, or proposes not to make, reasonable adjustments for the person
- b) the failure to make the reasonable adjustments has, or would have, the effect that the aggrieved person is, because of the disability, treated less favourably than a person without the disability would be treated in circumstances that are not materially different.

- a) the discriminator requires, or proposes to require, the aggrieved person to comply with a requirement or condition
- b) because of the disability, the aggrieved person would comply, or would be able to comply, with the requirement or condition only if the discriminator made reasonable adjustments for the person, but the discriminator does not do so or proposes not to do so
- c) the failure to make reasonable adjustments has, or is likely to have, the effect of disadvantaging persons with the disability.

- Enrolment - Horizons College will take reasonable steps to ensure that a student with a disability is able to seek admission to, or apply for enrolment in, the school on the same basis as a prospective student without a disability, and without experiencing discrimination.
- Participation - Horizons College will take reasonable steps to ensure that a student with a disability is able to participate in the courses or programs provided by the school, and use the facilities and services provided by it, on the same basis as a student without a disability, and without experiencing discrimination.
- Curriculum development, accreditation and delivery - Horizons College will take reasonable steps to ensure that courses and programs are designed in such a way that a student with a disability is able to participate in the learning experiences (including the assessment and certification requirements) of the course and program on the same basis a student without a disability, and without experiencing discrimination.

- Harassment and victimisation - Horizons College will develop and implement strategies and programs to prevent harassment or victimisation of a student with a disability, or a student who has an associate with a disability, in relation to the disability.

Reasonable steps will depend upon the specific circumstances at the time, but may include reasonable adjustments that do not impose an unjustifiable hardship.

When considering an adjustment for a student with a disability, any confidential information provided to Horizons College will not be disclosed except for the purposes of the adjustment or in accordance with a lawful requirement, in compliance with the Horizons College <<Privacy Policy>>.

Student and Employee Responsibilities

All students and employees at Horizons College have a responsibility not to engage in discriminatory conduct, including harassment and victimisation, and to uphold the school's policies on these issues.

If students, parents or employees believe that this type of behaviour is occurring in the school, they are able to make a complaint under the Horizons College Dispute Resolution Policy.

Implementation

Generally

Horizons College will:

- Provide training for all employees and volunteers in both their rights and obligations and the College policies and procedures relevant to discrimination issues.
- Ensure that students are aware of their right to equitable treatment.
- Ensure that people/students who make complaints, or witness an instance of discrimination, are not victimised in any way.

HORIZONS COLLEGE – POLICY & PROCEDURE

DISABILITY DISCRIMINATION POLICY

- Investigate promptly any reports of discrimination in an impartial manner and, as far as reasonably possible, confidentially.
- Guarantee that no employee will be disadvantaged in their employment conditions or opportunities as a result of lodging a complaint.

At Enrolment

To enable the school to meet the educational needs of each child, parents/caregivers are required to complete all questions on the school enrolment form. The utmost good faith requirement forms a condition of enrolment, that the school is provided with all relevant information to enable determination of resources required to meet each individual student's needs.

If a child has a disability, parents/caregivers will be requested to provide a copy of relevant documentation which may include verification documentation, other medical/specialist reports and/or any Education Adjustment Plan/Individual Plan from the student's previous school.

Identification Process

The level of specialist educational support required by students with disabilities is identified through the Educational Adjustment Program (EAP). This includes the collection of information from parents or caregivers and consultation with specialist personnel, if appropriate, and subject to parent consent.

The collation of this information will help ascertain the student's need for adjustments to:

- Curriculum
- Communication
- Social Participation / Emotional Wellbeing
- Health and Personal Care
- Safety
- Learning Environment / Access

Based on the information gathered, the Principal or delegate will make a preliminary assessment of the student's curriculum support needs and the school's ability to meet these needs. The Principal or delegated staff member will contact parents/caregivers to discuss the outcomes of the information-gathering process and to present the educational program the School can offer.

It is possible at this time that the enrolment will not proceed because parents form the view that the school cannot meet their child's needs, or the school can demonstrate that the enrolment will cause unjustifiable hardship to the student and/or the school.

Education Program

On confirmation of enrolment, the school will compile information about the needs of students with disabilities. The information collected will be use to assist the school in developing a support plan. The Student Support Plan will be reviewed at the end of each semester and at this time parents may be requested to meet with the Principal, or delegated representative, in order to discuss the progress of their child.

Partnerships will be developed with key stakeholders including teachers, family, students and relevant Professionals. Further relevant evidence will be gathered about the learner and used to inform educational decisions, including managing change or transition within the educational environment.

- On a confidential basis;
- In a timely way; and
- In a fair and impartial manner.

A person who makes a complaint will not be victimised.

Disciplinary action, up to and including termination of enrolment or employment, may be taken against a student or Staff member who is found, by the Principal or the Board (as appropriate), to have breached this policy.

If a person is found to have raised a false or malicious complaint against another person in order to prejudice that other person, they may be subject to appropriate disciplinary action. Where a person is alleged to have breached anti-discrimination legislation, it is also possible that legal action could be taken against them personally.
